Try These Practical DWARF FRUIT TREES

North Star Cherry

A new dwarf cherry. Extremely hardy, and bears very young. Wonderful for pies.

1 to 2 ft., \$2.00 2 to 3 ft., \$2.64
3 to 4 ft., \$3.00

- Hardy
- Economical
- Convenient
- Easy Picking
- Beautiful

Dwarf fruit trees are enabling millions of people with only small areas for fruit trees, and city families to have a variety of fruit never before possible. Even in small yards there is room for a dozen or more dwarf trees, providing fruit from early summer to late fall. The fruit from dwarf trees is just as large as that grown on standard size trees, and just as delicious. The only difference is that you pick the fruit without a ladder and caring for the trees is a much more simple job. Plant a variety of dwarf trees this year and have a real home fruit garden.

NEW DWARF DELCON

One Size Only
—2 Yr.—
3 to 4 ft.

\$2³⁵

A small tree with large apples. Ideal for small lots, yards and home orchards. Normally doesn't grow over 12 ft. tall, yet bears loads of beautiful, delicious dark red full-sized apples shaped like Delicious. Flavor has all the best qualities of its parents. Very hardy. Plant 8 ft. apart.

DWARF PEAR

BARTLETT—White, juicy meat. Ripens in early fall.

KEIFFER—Large, golden yellow. Late.

DOUGLAS—Large, late. Free from blight.

2 to

3 ft.

DWARF APPLES

Dwarf trees are most desirable for yards, or small gardens since they may be set 10 to 12 feet apart.

Lodi—Much like the yellow Transparent.

Summer Champion—Large red, late summer apple.

Blood Red Delicious—The choice red apple.

Blood Red Jonathan—Ripens August and September.

Blood Red Stayman—A good winter keeper.

Yellow Delicious—Best yellow apple on the market.

2 to 3 ft., \$3.14 3 to 4 ft., \$3.47
4 to 5 ft., \$4.07

Dwarf Elberta Peach

BEARING SIZE PEAR SPECIAL

Extra Large — Extra Nice. Will bear fruit this summer. **DOUGLAS — GARBER — KIEFFER.**

Heavy Branched.

7 to 8 ft.

\$2⁵⁰

Limited Quantity on these.

Shipped only by Express or Motor Freight.

NOT DWARF

DWARF PEACHES

Belle of Georgia—Very large, flesh white, excellent flavor. Freestone.

Golden Jubilee—Early large yellow freestone.

Improved Elberta—Fruit is very large, almost round with deep red blush on the sides. Excellent flavor.

Red Haven—Withstands low temperatures — large, freestone. Beautiful yellow with brilliant red blush. Ripens 3 or 4 weeks before Elberta.

1 to 2 ft. \$2.42 2 to 3 ft. \$3.19
3 to 4 ft. \$3.46 4 to 5 ft. \$4.07
5 to 6 ft. \$4.73

DWARF PLUMS

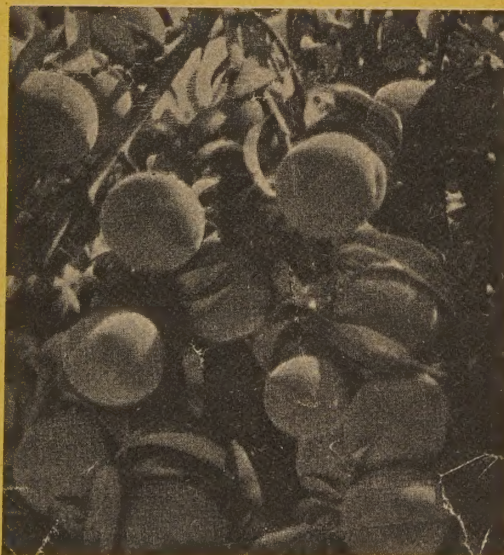

Hanska—When fully ripe its color is a deep bright red. The flesh firm and of high quality.

Bruce—Large, red, productive. Ripens early.

All Red—A red leaf plum which produces a bountiful crop of delicious red-meat fruit.

Gold—Very large yellow.

1 to 2 ft. \$2.53 2 to 3 ft. \$2.64
3 to 4 ft. \$2.86 4 to 5 ft. \$3.19

COCKTAIL TREES

NOT DWARF

Several different kinds of fruit on one tree — our best varieties on the same tree — all ripening about same time. Trees 3 to 5 ft.

A front view of our office, storage and packing rooms and some of our employees.

Where We Are

We are located in Arkansas — in the northwest corner county (Benton), only twelve miles south of the Missouri line and twenty-six miles east of the Oklahoma line; eighty-one miles almost due north of Fort Smith, Arkansas, and eighty-three miles, almost due south of Joplin, Missouri; one hundred twenty-nine miles east of Tulsa, Oklahoma, and one hundred six miles southwest of Springfield, Missouri. On Federal highways 71 and 62, just south of Rogers, Arkansas.

ON THE TIP TOP OF THE OZARK MOUNTAINS where our growing season is almost thirty days shorter than at Fort Smith, Arkansas. Our summers are short and nights are cool, and our growing season more like that of North Missouri, Iowa and Nebraska, than Eastern and Southern Arkansas.

Hence, our stock is well adapted to the extreme Northern, Eastern and Western States as well as being the best for Southern States.

BENTON COUNTY'S GUARANTEE

We want you to be pleased with the orders you receive from us. We know this is the only way to serve you and show that we value your business. We guarantee all during the season. Please write us for specialized customer.

We guarantee (1) that all plant material ordered from us will be in good live planting condition upon receipt. Any plant material that arrives in unsatisfactory condition will be replaced ABSOLUTELY FREE, transportation prepaid, or your money refunded, provided we are notified within ten days from date you receive order. (2) Losses from transplanting our sturdy Mour ain Grown Nursery Stock are at a minimum, but should any plant material fail to live in spite of careful handling by both nurserymen and planter; we will share the loss with our customer by replacing the plant material at one-half catalog price, f.o.b., Rogers, Arkansas, if we are notified not later than July first after planting. The above does not apply to trees sold at wholesale prices.

WE WANT YOU TO BE PLEASED. IF ANYTHING IS WRONG, WON'T YOU PLEASE WRITE US?

This Fall Is The Best Time to Plant That Orchard

WHY WAIT ANOTHER YEAR FOR FRUIT? GAIN AN EXTRA YEAR'S GROWTH!

It is important to get that full first year's growth—with no setbacks—Commercial growers all recommend fall planting.

WHY DO EXPERIMENT STATIONS, AGRICULTURAL COLLEGES AND FRUIT GROWERS RECOMMEND FALL BUYING? Because you can buy this Fall and have the stock shipped to you and "heel it in" so that you may plant it the most favorable time during Fall, Winter, or next Spring.

Fall planting is becoming more popular each season as experience shows its advantage. As soon as a tree or shrub becomes dormant it can be removed and change

of location will affect it but little. When set out in the Fall the bruised roots begin at once to heal and callus is formed; recover quickly from moving; soon become firmly established and with the first touch of Spring are ready to go into business for themselves in a vigorous way.

Again, the ground is usually in better condition for planting in the Fall than in Spring, for much Spring planting is done when the ground is too wet for best results. Perhaps your Spring will be two or three weeks earlier. In this case your trees should be planted earlier than the dates you have ordered them shipped. If they have been planted in the Fall, these Spring delays are done away with.

NURSERY STOCK ABSOLUTELY FREE!

Specify Free Stock on your order by marking "Free Bonus." If value of Free Bonus you select totals more than the Bonus to which the order entitles you, simply add the difference to your order. For example, if your Bonus amounts to \$3.00 and the Free Bonus you select totals \$3.75, simply add 75c to your regular order.

Bonus selections must accompany the original order or none will be sent, as all stock must be

packed in one shipment, so please don't forget your Free Bonus as we WANT you to have it.

Should we sell out of some items, we reserve the right to change the Bonus, sending you similar stock of equal or greater value.

NOTE: Bonus values must be taken in Nursery Stock. We are sorry we cannot accept orders if Bonus is deducted as discount, due to the very small margin of profit on all items listed in this catalog.

This Outstanding Offer Entitles You to Choose Your Own BONUS

YOU MAY SELECT:

\$1.00 Worth of Free Plants with Order for.....	\$10.00 or More.

(\$5 is maximum bonus allowed.)

PLEASE NOTE: The items that cannot earn BONUS are Strawberry Plants, Special Collections, Patented Roses, Evergreens, Crimson King Maple, June Budded Commercial grade Peach Trees, Special Quotations and all wholesale orders.

PRUNING READY FOR PLANTING

For 5% of the amount you pay us for your trees, shrubs, plants and grape vines, we will prune the roots and tops ready for planting according to best horticultural authorities on pruning and planting.

HARDY OZARK MOUNTAIN GROWN STOCK

**EXCELLENT
FOR SHADE**

NUT TREES

**ALWAYS PAY
BIG PROFITS**

NEW! IMPROVED

THOMAS BLACK WALNUT

**THE BIGGEST OF ALL WALNUTS
AND FASTEST GROWING**

Make Over 73% More on Them

THOMAS BLACK WALNUTS SHOULD BE PLANTED 40 feet apart each way, making 27 trees per acre.

**LOOK WHAT BIG PROFITS YOU
MAKE BY PLANTING OUR
THOMAS BLACK WALNUTS**

Here are the figures:

1 Bushel of Black Walnuts will run about 45 pounds. 1/4 of a bushel of Thomas Black Walnuts will be kernels or 11 1/4 pounds. Only 1/7 of a bushel of Common Black will be kernels or 6 1/2 pounds.

YOU GET 43 3/4 pounds More Kernels from Thomas Black Walnuts at an average price of \$1.35 per lb. A bushel of Thomas Black Walnuts would bring \$9.50 or \$5.50 more than common Walnuts.

IMPROVED THOMAS BLACK WALNUT

An improved jumbo, thin shell walnut that will grow and bear anywhere. Kernels are of giant size and come out in halves. Bears young and heavy, far out-bearing all other nut trees, mature trees bearing from 15 to 40 bushels. The Thomas is rapidly becoming the greatest money-making commercial nut tree being grown. The long producing life of the Thomas, over twice that of any fruit tree make it the best commercial investment of any tree. No care. Meat of delicious makes a large beautiful valuable shade tree for your home. Orders for these should be booked early as we will again be sold out before the season is over.

Commercial growers—write for special quotes in quantity lots.

This picture shows the fine quality trees and excellent root growth that are on 1 Year Thomas Black Walnut trees.

18 to 24 in.....	\$2.25	3 to 4 ft.	\$3.50
2 to 3 ft.	\$3.00	4 to 5 ft.	4.50

NEW CHINESE CHESTNUT

Years ago the Chestnut blight destroyed our Native American Chestnuts. The U. S. Dept. of Agriculture after many tests, introduced a type of Chinese Chestnut not only blight-resistant, but an early-bearer of large good quality nuts. Trees start bearing when very young. Often in 2 to 5 years. Plant at least two trees for good pollinization in well drained soil. Makes a beautiful tree for lawn plantings.

2 to 3 ft. (2 yr.) \$1.80 each 3 to 4 ft. (2 yr.) \$2.50 each

JAPANESE CHESTNUT

2 to 3 ft. (2 yr.) \$1.50 each 3 to 4 ft. (2 yr.) \$2.00 each
4 to 5 ft. (2 yr.) \$2.50 each

IMPROVED STUART PECAN SEEDLING

An extremely low priced tree. Be sure to order some of these. Grown from Genuine Stuart pecans.

3 to 4 ft., \$2.00 each

BUTTERNUT (or White Walnut)

Trees are lofty and spreading with a tropical appearance. Thrive where other trees cannot be produced, attains large size at maturity. Trees bear early, and produce a heavy crop of fine flavored nuts.

2 to 4 ft., \$1.95 each \$19.50 dozen

BLACK WALNUTS

Selected from good strain of large nuts, and have fine kernels. Trees are fast growing and good for shade trees as well as nuts.

2 to 4 ft., \$1.08 each \$10.80 dozen

JAPANESE WALNUT

Fast growing tree; a beauty for ornamental tree. Grows in almost any soil or climate, producing a heavy crop of fine flavored nuts at early age.

2 to 4 ft., \$1.70 each \$17.00 dozen

FILBERTS (or Hazelnuts)

A beautiful low growing tree branching from the ground up, foliage turning to gold in fall. Bears good quality, tender, sweet, nutritious nuts which are very much in demand. Bear almost every year and very young.

2 to 4 ft., \$1.28 each \$12.80 dozen

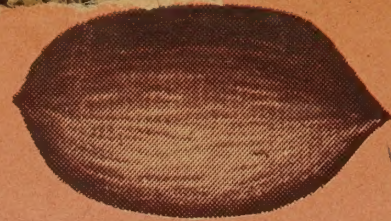

ALMONDS

Large, soft shell, rich and deliciously flavored nuts used widely by many housewives. Deep green foliage and very hardy.

2 to 4 ft., \$2.15 each

SHADE TREE SHELL PECANS

1 1/2-2 ft., \$2.75 each
2-3 ft., \$3.25 each

The two varieties named are considered the best of all pecans. They have been recommended by the United States Department of Agriculture as being immune to scab and other diseases to which most varieties are susceptible.

STUART—Very large, oblong, marked with dark color, shell medium thickness, flavor rich and sweet; nuts averaging 40 to 60 per pound. One of the earliest and heaviest bearers. No one will make a mistake in planting largely of this variety as it succeeds on the different soils, especially on the clay soils of the northern portion of the cotton belt.

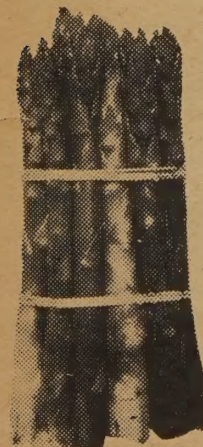

SUCCESS—Size large, oblong, tapering to the apex. Color reddish brown, purplish markings, shell thin, cracking quality good; partitions thin; kernel large, full, plump, yellow; flavor sweet, quality very good. The tree is a good grower. A fine variety. Success usually is one of the latest to start growth in spring.

GARDEN FAVORITES

ASPARAGUS NEW PARADISE

New introduction about twice as productive as others. Large, plump stalks, tender from top to bottom — keep shooting up for about 2 months each spring. Fine for canning or freezing. Rust-proof, disease-resistant.

\$1.02 per doz. **\$3.69** per 50

MARTHA WASHINGTON

A very strong grower stalk giant size, green color, rich and tender. In addition to being very productive it is rust-resistant and a bed will last for years.

79c per doz.

GRASS FOR A BEAUTIFUL LAWN

PROSO

The **WONDER EGG**
and Meat Producing
Poultry Grain

The best feed producer of anything in the Millet family.

Here is a new Poultry Grain that owes its origin to Russia, that enables you to raise your own feed. It grows more rapidly and matures quicker than other grains. It reaches a height of three to four feet, stools and branches making fifteen to twenty-five heads instead of one. **Wonder Egg and Meat Producer for Chickens, Ducks and Geese.** Produces more eggs and meat per bushel than ordinary grains.

Fine for Hogs, Cattle, Sheep. Grows Anywhere. May Be Planted Late. Proso does better, grows faster and matures quicker in our climate. It may be planted any time after corn planting time up to the middle of July.

Trial Pkg.	47c	2 1/2 Lbs.	\$1.31	5 lbs. (1 acre sowed in drills)	\$2.10

BENTON COUNTY'S ATHLETIC AND PLAYGROUND MIXTURE

A high quality inexpensive mixture of the better lawn seeds for permanent year 'round home lawns, parks, athletic fields, playgrounds. Withstands rough treatment.

per lb.....**\$1.15** 5-lbs.....**\$5.00**

CRIMSON CLOVER

Forms a solid, tight, close turf especially good for sloping lawns and terraces.

per lb.....**\$1.15** 5-lbs.....**\$5.00**

KENTUCKY BLUE GRASS

Excellent lawn grass; ideal for golf fairways and putting- greens; the sweetest and best pasture grass. Plants slightly creeping with deep green, narrow leaf blades. One pound plants 250 sq. ft. for lawn; 40 pounds per acre for pasture. Plant in the fall and early spring.

1 Lb. \$1.10; 5 Lbs. \$4.98

PERENNIAL RYE GRASS SEED (Winter Green)

A fine winter lawn grass. Fast growing with broad, flat blades of a beautiful green color. When scratched in the present lawn it will produce in about two weeks. It makes a beautiful solid carpet of green by itself. Sow about 10 lbs. per 1000 sq. ft. (50' x 20'). When planted as Bermuda or carpet lawn the grass should be mowed as closely as possible before sowing Winter Green seed. It lasts until the Bermuda grass or carpet grass comes up in the summer. It does well in sun or shade.

1 Lb. 63c; 5 Lbs. \$2.63

MAYFAIR LAWN GRASS

Contains seed of the following: Kentucky Blue Grass; Red Top-Herds Grass; Creeping Red Fescue, Alta Fescue-Rye Grass, English Blue Grass, Domestic Rye Grass, Perennial Rye and White Clover

ORIENTAL ORCHARDS OF THE GARDEN

(IRIS KAEMPFERII)

Your garden is not complete until you have this beautiful flower growing in your perennial collection. Now you can grow your own Orchards by planting Iris Kaempferi, which is entirely different from all other Iris and comes into bloom as the early summer fades, continuing to bloom until mid-July. The huge blooms of velvety texture measure 6 to 8 inches across. The leaves are long, narrow and gracefully formed, and the plants remain decorative even after the blooming period is over. It is no wonder that the Kaempferi is called the "Orchid of the Garden." Excellent for cutting, it will grow 3 to 4 feet high. Plants thrive in well drained fertile soil (it is fatal to select a location where water stands during winter).

Mixture of Colors:

Rose, White, French Blue,
Purple-Velvet, Lavender, Variegated.

(Our selection of colors)

6 Plants for only **\$3.47**

3 for **\$2.05**
12 for **\$6.05**

IMPORTANT: Add an equal amount of Hydrated Lime for every part of Arsenate of Lead used in above.
SEEDLINGS: Do not allow your trees to sprout out below the top bud or graft as the trees will be seedlings when allowed to sprout. Cut off all sprouts that come out below the top bud or graft.

These Prices Cancel All Previous Quotations

FLORAL DUST
For the control of most insects, such as aphids, Japanese beetles, thrips, caterpillars, lacebugs, rose weevils; and diseases such as Black Spot, Powdery Mildew, Leaf Spot and Rust.
1 Lb. Can \$1.20

TREE WOUND DRESSING
A very adherent and lasting antiseptic dressing for sealing and waterproofing tree wounds. It is unexcelled for preventing infection of pruned or damaged portions of trees and shrubs. It is also good for grafting purposes.
1 Pint Can \$1.25

SPRAYMATE
ONLY **\$4.89**

The Spraymate is the handiest sprayer you can have around your home or farm. It's a compact, yet efficient unit, that will give complete coverage for all spraying jobs. All moving parts are made of brass, eliminating any possibility of corrosion or rust. Fits any standard Mason jar. Adjust the nozzle, from a heavy fog to a long stream to meet your spraying requirements.

BLOSSOM SET
Use BLOSSOM SET No Seed Hormone on your tomatoes for bigger fruit, more luscious, heavier bearing. Just mix with water and spray over the whole plant. Stops blossom drop, sets fruit chemically. Tomatoes ripen 2 to 4 weeks earlier. Fruits are larger, firmer, more delicious. Most are SEEDLESS. Try Blossom Set and you'll say you never tasted such wonderful tomatoes. Remember it sets the fruit chemically, not by pollen. Also excellent for strawberries, peppers, and cucumbers.
4 oz. bottle (makes 1 gal. spray) 75c 1 pt. (makes 4 gal. spray) \$1.75

✓ **EARLY RICHMOND**—Everywhere the most popular. Tree strong, thrifty grower, making a large, symmetrical head; fruit medium, size, dark red, melting, juicy, sprightly, acid flavor and especially valuable for cooking purposes; tree an early and abundant bearer. Season last of May and first of June.

✓ **ENGLISH MORELLO**—Tree moderate grower, hardy, an early and great bearer; the most valuable of the late varieties. Fruit large, round; skin dark red, becoming nearly black when fully ripe; flesh dark red, tender, juicy and a pleasant sub-acid flavor when fully ripe. July.

✓ **IMPROVED MONTMORENCY**—A fine large light red cherry of the Richmond class but larger and more solid; a more upright grower, equally hardy and productive. Second only to Early Richmond in value. Ripens ten days later.

SWEET V

SWEET VARIETIES

✓ **SCHMIDT'S BIGARREAU**—Very large, bright glossy black; half tender, juicy, rich and fine. Tree a rapid grower and good bearer. Last of June and first of July.

✓ **YELLOW SPANISH**—Tree very large and vigorous, upright spreading. Fruit mid-season, color bright amber-yellow with a reddish blush. Flesh white, with tender aromatic sweet flavor. Freestone. Bears abundantly.

✓ **LAMBERT**—Glossy dark red. Large big loose clusters. Extra hardy. Ripening in mid-season.

✓ **ROYAL ANN**—Golden yellow overspread with coral red. Keeps well. Good for eating and canning.

✓ **BLACK TARTARIAN**—Early sweet cherry which stands dry, hot weather.

✓ **Hansen**

HYBRID BUSH CHERRY

Large, purplish red, sweet fruit, 1/2-inch or more in diameter. Excellent for serving fresh and for jellies.

Dwarf grower, approximately 3 feet in height and spread. Ornamental as well as fruitful, being covered with white flowers in Spring, and foliage turning red in Autumn. Ripens early July.

2 to 3 ft., ea. 84c; \$8.42 doz.

POLLINATION—It is advisable to plant two or more varieties of plums, as many varieties do not self-pollinate.

✓ **AMERICA**—Very early, hybrid. A full brother of Gold, the sensational \$3,000 plum. Same parentage—a cross between Burbank and Robinson (Native). From the far-reaching experimental hybridizing of 20,000,000 cross-bred seedlings by the great scientist, Luther Burbank, came two grand plums—Gold and America; it was then plum growing received its greatest impetus. America is large, glossy, coral red, one of the most beautiful and delicious plums ever grown. In our orchard it is the one variety that can always be depended upon. Tree large, very vigorous, cold-resistant, hardy, bears extremely young, and bears enormous crops every year. Succeeds everywhere. Eating, cooking, market.

✓ **MUNSON'S YELLOW**—A hybrid, seedling of Normand crossed with America. Ripens last week in June, the earliest of all plums to ripen. Colors well, yellow; size large; good quality, tender, juicy and sweet Freestone.

✓ **HANSKA PLUM**—The color of the Hanska when fully ripe is a deep bright red, with firm flesh and of high quality. When fully ripe they are fragrant like the apricot and when cooked the strong apricot flavor is brought out to perfection, entirely unlike any native plum. The fruit has a small pit. The tree is a profuse bloomer, grows tall and is rapid grower. The trees often bear when they are only two and three years old. Freestone.

✓ **SHROPSHIRE DAMSON**—Large purple freestone of excellent flavor. Thrifty growing tree. A fruit that will carry well, and for its season of ripening it has no equal. Ripens about August 5th.

✓ **PRESIDENT**—The largest of all the Plums. A beautiful dark purplish black with a heavy bloom. Ripens late, 10th of September. A wonderful rich flavored freestone, solid-flesh plum.

✓ **BRUCE**—Large, red, productive. Early ripening, firm shipping quality, productiveness and deliciousness of flavor.

✓ **SAPA**—Bears first year. (Hanson Hybrid). A large size purple Hanson hybrid with purple flesh full of rich juice of fine flavor. Bears heavy crop annually and begins fruiting the first year after planting. Succeeds everywhere; ripens middle of July. Fine for canning.

✓ **STANLEY PRUNE**—Medium large; purplish-black; blue bloom; free; flesh greenish-yellow, juicy, sweet and of good quality; will hang on tree after ripening; splendid for drying and market. Tree very productive. September.

✓ **GOLD**—Hardy young bearer. Golden yellow, blushed with a cherry-red. Noted for its beauty and fine quality.

✓ **WANETA**—Large red. A sure bearer every year.

✓ **METHLEY**—A recent introduction which is rapidly gaining popularity due to its fine quality and beauty. The fruit is medium to large, reddish purple in color. Flesh is red, juicy, and sweet.

✓ **ALL RED**—A red leaf plum which produces a bountiful crop of delicious red-meat fruits. Red all over, even the branches, leaves, stems, fruits and seeds. A gorgeous tree for yard plantings both for ornamental and fruit purposes.

BRAND NEW UNARK CHERRY

Originated at Fayetteville, Ark., and was introduced by Dr. Rosen of the University of Arkansas. Named Unark meaning the University of Arkansas.

This cherry is a large yellow sweet cherry. It bears every year and does not have to be pollenized with any other variety. It is as fine a yellow cherry as we have seen or ever heard of. The original tree stands 1 1/2 blocks off the square at Fayetteville, Ark.

Don't fail to order at least one of these trees. We have only a limited quantity on hand to sell this year.

(Limit 5 Trees per Customer)

SOUTH HAVEN

Freestone. Ripens about 10 days before Elberta. Will bear full crop almost every year when Elberta fail. Large yellow peach. Good quality.

JUNE ELBERTA

Ripens about 30 days before Elberta. Will bear full crop almost every year when Elberta fail. Large yellow low peach. Good quality.

HALE-HAVEN

A most promising new, large, yellow freestone. Introduced by the Michigan State Experiment Station. A cross between the Hale and South Haven. Ripens two weeks earlier than the Elberta, making an excellent combination with Golden Jubilee and Elberta.

REDHAVEN

A Grand Peach—the most promising, new, early yellow variety for either home use or commercial markets. (Freestone). Hardy, vigorous grower.

1. EXTRA EARLY—Ripens a month before Elberta.
2. BRILLIANT COLOR—Almost as red as a Jonathan Apple. Redens before it ripens.
3. FINE FLAVOR—Large Fruit. Sweet, juicy, fine textured, delicious.
4. GOOD SHIPPER—Firm flesh and tough skin.

MELBA MAMMOTH

The largest of all. Our greatest find in a super delicious honey hybrid, never fails, the best frost resistant peach grown, standing 10 degrees below freezing while in bloom, no other peach ripens over such a long period, starts early June lasts most of July. The King of eating peaches.

BELLE OF GEORGIA

Very large, skin white, with red cheeks; flesh white, firm and of excellent flavor; the fruit is uniformly large and showy, prolific. Chinese Cling seedling. Freestone.

GOLDEN JUBILEE

We recommend this New Jersey Experiment Station introduction. Comparatively new, but widely planted. Is a real money maker. Quite hardy, resists excessive cold. Sure cropper, after severe Winters and heavy frosts. Ripens 20 days before Elberta.

GOLDEN JUBILEE is without equal as an early, large, yellow Freestone of highest quality. Flesh is yellow, tender, juicy, and sweet. Ideal for home use and roadside market sales.

WE SPARE NO EXPENSE IN BRINGING YOU THE BEST AND LATEST METHOD OF PACKING

The greatest of care is taken to insure you of obtaining the finest of Nursery Stock. Our stock undergoes a series of five inspections by the State Plant Board Inspector and our Plant Inspectors before being shipped to you. Your plants are shipped bare root to you. The roots of all trees and plants are dipped in RUTEX—the best moisture preserving agent known—then wrapped in Polyethylene moisture preserving paper to insure your getting your trees in the best condition. RUTEX also protects your trees after planting.

BENCO'S BIG THREE

The Three Top Commercial Producing Peaches

IMPROVED LORING

Originated in Mountain Grove, Missouri; by the Missouri State fruit experimental station. Introduced commercially in 1946. Cross between a Frank and a Hale Haven Peach. Selected in 1943 as "fruit of the year." Fruit definite freestone. Flesh attractive yellow with red blush. Large firm, good shipper. Ripens 10 days before Elberta. Most nearly resembles Golden Jubilee. Fruit will remain on tree for two weeks in ripened stage.

	Each	5 Lot	10 Lot	25 Lot
1-2 ft.....	.84	.79	.77	.69
2-3 ft.....	1.18	1.14	1.11	1.04

4-5 ft.....	1.81	1.87	1.74	1.66
5-6 ft.....	2.09	2.05	2.02	1.94

IMPROVED ELBERTA

The fruit is almost round with deep red blush on the sides. It is easily 4 to 5 inches in diameter with excellent flavor. Much larger and more colorful than the regular Elberta. A few years ago a local fruit man gave \$5.00 a bushel when he could and was buying ordinary Elberta as for \$1.50 to \$2.00 per bushel.

Very early, clingstone, red blush.

RED BIRD CLING

Red clingstone, large white, red blush, early.

J. H. HALE

Freestone, yellow with red blush, large.

EARLY ELBERTA

Freestone, 10 days earlier than Elberta.

ELBERTA CLING

Mid-season, yellow.

ELBERTA

The great market peach, yellow, freestone.

LATE ELBERTA

Late freestone, yellow.

HEATH CLING

Large, white with pink blush, September.

OLD-FASHIONED RED INDIAN

Blood red to seed, clingstone.

CHINESE CLING

Large, cream color with pink stripe.

KRUMMEL'S OCTOBER

Freestone, large yellow, good quality.

NECTAR PEACH

Ripens July-August. The best early freestone we have ever seen. It has size, beautiful colored, with a light yellow overcoat, with red blush, a distinctive flavor with a delightful suggestive nectarine tang and a wonderfully appetizing aroma, firm, juicy, finely textured, almost no fuzz on the skin, when ripe the skin will peel off like a banana and the flavor is best quality and should be in every family orchard.

2 to 4 ft., \$2.04; 4 to 5 ft. trees, \$2.59 each

BRAND NEW ARKANSAS BLACK PEACH

Extra Early Variety. The earliest peach known in this section. Most beautiful color we have yet seen for a peach. They are a very dark red getting almost black; clingstone and of good quality. Their high color and excellent quality makes them sell like hotcakes.

3 to 5 ft., \$1.50 1 to 3 ft. \$1.25

SURECROP NECTARINE

Resembles a peach in shape, size and flavor. Fuzzless as a plum. Fruit large, juicy and melting. Unequaled as a fresh fruit or for canning. Same habit of growth and bearing as the peach and requires the same care.

SURECROP—Red freestone underlain yellow.

BLOOD RED ROME BEAUTY

DELUXE

BLOOD RED ROME BEAUTY—Bright, beautiful red of large size. Excellent for baking. Flesh is tender, juicy and good quality. Bears young, regularly and very hardy.

DELUXE—Very early and large size fruit, good cooking and eating apple with a light green color. Bears heavily.

TURLEY WINESAP—The old winesap did not have enough red color. Turley Winesap is a cross between a Rome Beauty and ready to pick. Does not crack. One of the finest apples; keeps until spring.

BLOOD RED JONATHAN—A beautiful red apple, highly flavored and of excellent quality, being tender, juicy, spicy and rich. Gets red all over. Highly profitable for market. Trees long-lived, productive, and an early bearer. November to April.

BLOOD RED JONATHAN

BLOOD RED STAYMAN WINESAP—A large Stayman Winesap that is blood red, excellent quality, keeps well. The tree is a fair grower and good bearer.

LODI (Big Transparent)—Lodi is proving to be one of our best early apples because of its large size, firmness and early bearing habits. The tree and fruit resemble the Yellow Transparent but the fruits are much larger and make the Yellow Transparent apple look like culls. The tree bears annually and ripens with the Yellow Transparent.

The Old Folks' Favorite

ANOKA

Bears second year. A wonderful early apple. Fruit is large and yellow, streaked with strawberry red. Good flavor.

1 to 3 ft., \$1.27

3 to 5 ft., \$1.69

New WHETSTONE Apple

A Ben Davis by Jonathan cross, which in turn was crossed with Delicious. Originated at the Missouri State Fruit Experimental Station at Mountain Grove, Mo. The fruit is large, well colored, uniform in size and shape, keeps extremely well. The fruit is red with darker obscure stripes of medium width. Has greenish yellow background, but colors well all over when ripe. The tree is vigorous, has large leaves, long apple stems and thick twigs. Produces large regular crops of high percentage of smooth apples. The finest baking apple we have ever known. Latest ripening apple to pick. Best keeper. The most interesting characteristic is its ability to hang on the tree and continue to grow and color after most all other commercial varieties drop.

Don't fail to order at least one of these trees this fall.

We can furnish 3 to 5 ft. size only.....\$1.94

(Limit 5 trees per customer)

BARTLETT—Early, large, good quality.
DOUGLAS OR BLIGHT-PROOF—Large, good quality, late, free from blight.
KIEFFER—Large golden yellow, late.

EARLY VARIETIES

BARTLETT—Large size, with beautiful blush next to the sun; juicy and melting; one of the best for preserving and canning; the most profitable to grow. Tree healthy, hardy and vigorous. It is liable to overbear, therefore special pains should be taken to thin the fruit.

DOUGLAS—Eight planting; is very productive. The fruit is larger than Kieffer or Bartlett. The color is golden yellow, often with pink shading. The flesh is white, very tender and juicy and excellent flavor.

AUTUMN VARIETIES

KIEFFER—Large, golden yellow, often blushed in the sun; juicy and melting; one of the best for preserving and canning; the most profitable to grow. Tree healthy, hardy and vigorous. It is liable to overbear, therefore special pains should be taken to thin the fruit.

DOUGLAS—Eight planting; is very productive. The fruit is larger than Kieffer or Bartlett. The color is golden yellow, often with pink shading. The flesh is white, very tender and juicy and excellent flavor.

CAMPUS KIEFFER

An improved Kieffer. When fully ripe they are excellent to eat right from the tree. All we have seen of them are seedless.

2 to 3 ft., \$1.65 3 to 5 ft., \$1.81

5 to 7 ft., \$2.03 7 to 8 ft., \$2.47

SEEDLESS PEAR

Brand new variety. Practically seedless. Solid all the way through. Ideal for canning. No waste. It is of the Bartlett type, pure white flesh with yellow blushed skin. Ripens 10 days later than Bartlett, and trees bear when three years old. A 5-year tree known to bear 3 bushels of fruit.

3 to 4 ft. size, \$1.96 each

POLLINATION—Two varieties are needed. The only combination that is cross-incompatible is Seckel and Bartlett. A third variety is needed with the above two.

CULTURE

Pears will grow on almost any soil but will do best on a high elevation, provided the sub-soil is not too wet. Wherever this is the case the ground should be thoroughly underdrained. In very poor soil a heavy top dressing of manure in the fall will be of advantage. Standard pear trees should be planted twenty feet apart each way.

Pears are subject to fire blight, a disease controlled only by cutting back the branches beyond the point of injury.

Do not allow pears to ripen on the trees. The highest quality results from gathering fruit ten days before it is ripe. Winter pears are best stored before the heavy frost.

CRAB APPLES

FOR ALL CLIMATES

FLORENCE—The finest of the Crab Apples. Tree of rather small size, coming into bearing when very young and producing heavily; the fruit setting in clusters. The apples will measure about an inch or slightly more in diameter; golden yellow with a bright cheek or almost entirely red. The flesh is firm, fine grained and exceedingly juicy with that distinct snapiness so relished in a crab apple.

2 to 3 ft.....85c each 3 to 4 ft.....\$1.12 each

4 to 5 ft.....\$1.52 each

DOLGO

DOLGO—A handsome red Crab Apple. Flesh is deep red to the core. The fruit is full of juice, jells easily and makes a rich ruby red jelly of beautiful color and excellent flavor.

2 to 4 ft.—Each.....\$1.17

4 to 6 ft.—Each.....\$1.50

JONADEL APPLE

New. Originated in Iowa. A cross between Jonathan and Red Delicious. It has all the good qualities of each of them and is flavored more acid than the Jonathan, and has more acid than the Delicious. It is sure to make a number one commercial apple.

2 to 3 ft.....\$1.25 3 to 4 ft.....\$1.51

4 to 6 ft.....\$1.75

BIG JUICY STRAWBERRIES

STANDARD VARIETIES

25 for 98c; 100 for \$2.63;
1000 for \$15.28

BLAKEMORE—Extra early fruit of bright red color, best market berry yet introduced. Bears enormous quantities of fine quality berries. Fine for freezing, good shipper.

SENATOR DUNLAP—A great producer and a money maker. One of the very best for canning and home use. Exceedingly productive, a sure cropper and a drought resister.

KLONDIKE (Improved)—The standard berry for the southern and middle states and does fairly well in the northern states. Productive, brilliantly colored and so firm that on the northern market it classes a re-shipper; commands top-notch prices.

25 for \$1.10; 100 for \$2.75;
1000 for \$17.60

TENNESSEE SHIPPER—A large, very firm, well-colored berry that sizes up well and retains its size throughout the season. High yield per acre and fine shipping qualities. One of the best for table use, preserving or freezing.

PREMIER—Among the first to ripen. Fruit large size and deep red color. Firm flesh and excellent quality. Heavy yielder and makes thrifty growth. You can depend on Premier for a good crop when other varieties are a failure. Foliage is not susceptible to the leaf spot.

AROMA—In matters of productiveness, quality, flavor and market value, the Aroma is so much superior to the other old standard late varieties that we urge old customers to plant Aroma heavily and increase their profits by prolonging their berry season.

ROBINSON—A new variety with large size beautiful bright red and firm berries. A worthy mid-season to late berry specially adapted to commercial growing. A free plant maker and has healthy foliage.

OZARK RASPBERRY- STRAWBERRY

FINEST EVERBEARING STRAWBERRIES

Gem Everbearing

The universal everbearer, an old favorite; succeeds in all soils and climates except in the extreme south; fruits heavily the first season the plants are set; very heavy cropper of medium large, sweet, mild, and beautifully colored berries. Grow it in hills or narrow rows.

ALL PREPAID

Have Them Fresh and Luscious
from Your Own Garden

IMPORTANT NOTICE!

A new disease of strawberry plants (Red Stele Root Rot) is very destructive and reports of damage vary from 40 to 92 per cent reduction in fruit crop. No treatment of the disease is known and the fungus will live in the soil for several years making it unprofitable to produce strawberries on the same land where the fungus has been in the soil. This disease is spreading rapidly. DON'T TAKE ANY CHANCE OF GETTING INFESTED PLANTS. ORDER FROM US. Our plants are twice inspected, once in the Spring for Red Stele disease and once in the Fall for all kinds of insects and diseases that attack strawberry plants. Our plants are found to be apparently free of all diseases. ORDER OUR PLANTS FOR HEALTHY STURDY PLANTS. DON'T GAMBLE ON CHEAP PLANTS AND LOSE YOUR FRUIT CROP.

THREE BRAND NEW STRAWBERRIES

NEW ARMORE—Blakemore X Aroma cross. Large size, firm fruit which is dark red all the way through. Ripens 10 days later than Premier.

ALBRITTON—A promising new variety. Berries are large, ripens early, have a light red attractive color. Firm enough for distant shipping. Out yields them all.

25 for \$1.32; 50 for \$2.15; 100 for \$3.52; 1000 for \$19.80

Be sure and try this new berry. It canes like a raspberry, growing 18 to 24 inches high, it also caps like a raspberry, but the berries have that good strawberry flavor. Ripens the latter part of July.

Price: 28c ea.;
\$2.75 doz.

100 for \$12.08

EARLY HARVEST—Early and good shipper

LAWTON—Berries large, soft, sweet, very good. Season medium. This bush is very vigorous. Half hardy, and productive.

OZARK BEAUTY — Superior to any blackberry grown where it has become known, this blackberry is hardy, stands drouth. It is almost free from seed and has no objectionable core. It has little or no juice, the pits being filled with a thick syrup or flesh of the berry. Ripens just after Early Harvest. The berries are very large and best quality. You will make no mistake in ordering Ozark Beauty.

Large, Meaty EVERBEARING BLACKBERRY (TREE FORM)

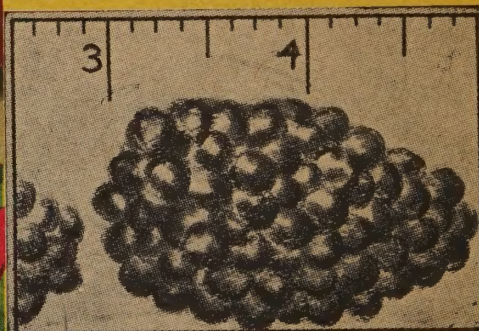

This is one of the latest creations in blackberries. Bear enormous crops, beginning to ripen just after the Early Harvest and continue almost until frost; the berry is very large, of fine quality, melting in your mouth, and does not have a large core. Husky growing plants, standing erect, resembling small trees from 6 to 8 feet high and branch heavily. We have only a very few for the market this year.

25 for \$6.05 12 for \$ 3.30
100 for 19.25

BENCO'S CRYSTAL WHITE BLACKBERRY

An ideal novelty fruit of real value. Berries honey-sweet, few seeds. Size of regular Blackberry. Stunning when mixed with black ones for dessert.

3 for \$1.02 6 for \$1.95

Look at the Size of the NEW BOYSENBERRY

One of the largest and finest vine berries ever introduced. The berries are extremely large, many of the berries getting more than two inches long and over one inch in diameter.

3 for \$.52 12 for 1.95
25 for \$ 3.45 100 for 14.44

SENSATIONAL THORNLESS BOYSENBERRY

Each 28c Doz. \$2.31
100 for \$17.33

Probably the biggest berry ever developed. Imagine berries 1 1/2 to 2 inches long, so large that 20 make a pint, and are so productive that 100 plants produce 50 gallons of fruit the second summer. That is the record of Boysenberry. The beautiful wine-red fruit combines the delicious flavors of Loganberry, Blackberry and Raspberry, of which it is a cross. No new fruit in many years has caused such a sensation as Boysenberry. In addition to all these remarkable qualities, the plants we offer here have NO THORNS.

DEWBERRIES

3 for \$.45 25 for \$ 3.22
12 for 1.82 100 for 11.18

LUCRETIA — Fruit very large, luscious and sweet; perfectly hardy, healthy, enormously productive; a very prolific market fruit; the vines should be allowed to remain on the ground during the winter and staked up early in the spring. Fruit ripens early, is often one and one-half inches long.

RASPBERRIES PAY BIG PROFITS

25 for \$3.75 12 for \$1.95 50 for \$6.95 100 for \$11.95

Purple Variety

SODUS—An excellent home use berry, delicious for desserts, canning, preserves, jelly, etc. A very large, juicy fruit, a fruit that is easily grown and very hardy, adapted to cold and dry weather; does not have many briars, and yields very heavily.

Black Variety

CUMBERLAND — The largest of all the blackcaps; coal black berries; very firm and the quality of the very best; excellent shipper. Bush is a strong grower, stocky canes and unusually prolific. Mid-season.

Red Variety

LATHAM (Minnesota No. 4) — A new introduction from the Minnesota state breeding farm. A very firm, large and most prolific red raspberry yet introduced. It is extremely hardy and of the very best quality. It has been largely planted in Minnesota and has given the best results. It stands shipping well and tops the market. It is mosaic-free, a disease that attacks raspberries sometimes. Plant some in your garden. You will never regret it. It is claimed that many fruit growers are averaging \$1,000 per acre a year.

BENCO'S NEW GOLDEN QUEEN RASPBERRY

A real novelty! Sensational yellow Raspberry of the black Raspberry type. A chance seedling that is a cross between the red and black Raspberry—berry, a rich golden color of medium size. Its flavor is entirely different from any berry grown. Grown in preference to the red and black Raspberries, because of its sugar-sweet flavor. Just before the berry fully matures it is a rich yellow color, and when fully ripe a rich golden yellow. Truly a novelty shrub for your garden—most unusual feature is that after first frost, canes will turn a rich yellow color, fruit can be eaten fresh or can be preserved; again they are very outstanding in a glass fruit jar, berries retain rich golden color. Get some for your garden now!

3 for 1.46 6 for \$2.61 12 for \$4.82

New BLUEBERRIES GROW YOUR OWN — PICK THEM FRESH OFF THE BUSH

As a commercial proposition it is one of the most profitable fruits to grow. Big market. Make good money in a very short time for you can begin picking the second or third season after planting.

Choose a piece of ground easily supplied with moisture during dry summer months; it should not, however, at any time become water-logged. Plant in full sun if possible, they will also do well in partial shade. Be sure the soil is acid. Give only shallow cultivation, not over 2 to 3 inches deep.

CONCORD. Bush of upright habit, at maturity exceeding 6 feet in height. The berries are large.

JERSEY. Very large and vigorous in habit. The light blue berries are very large.

2-Yr., 12 to 18 in.: Each \$2.18; 3 for \$6.05;
6 for \$10.45; 12 for \$17.60

We recommend ordering both varieties, they cross-pollinate and fruit freely.

MIRANDY (Pat. 632)

A gorgeous, fragrant, red rose that takes its place with the finest red roses of the world. The big buds are deep, rich dark red with black shadings, opening to a gorgeous chrysanthemum-red.

1 to 2 feet, \$1.10

BUTTERFLY BUSH—Flowers resemble lilac in color and shape—appear in great profusion from mid summer until frost; delightful fragrance.
2-year, \$1.21

CALYCANTHUS (Carolina All Spice) — Straight, strong, reddish brown shoots with large glossy leaves, from the axils of which spring odd double, spicily fragrant flowers of chocolate red.
18 to 24 inches, \$1.21

CARAGANA (Siberian Pea Tree)—Large shrub with beautiful leaves of bright green; flowers yellow in small clusters in late spring.
2 to 3 ft., \$1.38

CRAPE MYRTLE (Lagerstroemia)—The most gorgeous of all blooming shrubs for the Southwest. Blooms throughout the entire summer withstands droughts wonderfully. We can supply Pink, Red, and White.
3 for 2.75 1-2 ft. \$1.10 ea.
3 for 3.29 2-3 ft. \$1.50 ea.

CYDONIA, JAPONICA (Flowering Quince) — Scarlet flowers appear before the leaves, giving a brilliant glow to the bush from a distance.
2 to 3 feet, \$1.50

DEUTZIA (Pride of Rochester)—Upright fast grower, 6 to 9 feet. Flowers in large panicles are pinkish white in late May.
2 to 3 ft., \$1.10; 3 to 4 ft. \$1.50

DOGWOOD (Red Osier) — A spreading shrub, branches in winter are a dull purplish red color; leaves dark green above, whitened beneath; flowers are creamy white in dense flat topped clusters, followed by white berries.
2 to 3 feet, \$1.21

ELDER (Cut-Leaved) — Great, handsome cymes of delicate white, fragrant flowers in June and July, followed by large clusters of fruit.
1 to 2 feet, \$1.06

ELDER (Golden)—The golden yellow leaves of this European Elder give heightened effects in tone and color. Flowers white, in flat topped cymes.
18 to 24 inches, \$2.31

HONEYSUCKLES
3 for 3.03 2-3 ft. \$1.08 ea.
3.41 3-4 ft. \$1.19 ea.

WINTER HONEYSUCKLE—The white flowers often open before the snow has gone in spring, and are deliciously fragrant.

MORROWI HONEYSUCKLE — In early spring the bush is like a ball of snow, because of the profusion of blooms. During midsummer the bright red berries contrast strikingly with the foliage.

TARTARIAN HONEYSUCKLE—Blooms very freely and in midsummer carry loads of brilliantly colored berries, usually of bright red. We can supply Tartarian Honeysuckles in pink or red.

HYDRANGEA
3 for \$3.85 18 to 24 inch, \$1.43 each

ARBORESCENS GRANDIFLORA (Hills of Snow) — The flowers are similar to the familiar 'Snowball' conspicuously white and imposing. July to September.

PANICULATA GRANDIFLORA—Will get to be very dense, dwarf clumps of compact form, wonderfully attractive when laden with their massive white plumes. Extremely showy, first snowy white, then pink then reddish-bronze and green. August till autumn.

BLUE HYDRANGEA
BEAUTIFUL NIKKO BLUE—Blooms all summer. Has immense flower heads, often a foot across, that last many weeks. In ordinary soil the flowers are pink—in acid soil, they are blue. To make soil acid mix in half Peat Moss, or water twice a month with a tablespoon of aluminum sulphate per gallon of water. Does best in partial or full shade. Where winter temperature goes below zero give protection just like roses.
Blooming Size \$1.75 each

FORSYTHIA (Golden Bell)—Masses of yellow very early in spring before leaves appear.
2 to 3 feet, \$1.20

HYPERICUM (St. John's Wart) — Dense, rounded construction of fine twigs and small, usually shiny leaves; abundance of fully distributed yellow blooms.
2 to 3 feet, \$1.50

HIGHBUSH CRANBERRY (Viburnum Opulus)—Beautiful shrub of the viburnum family, foliage the same as the old fashioned Snowball, blooms in early spring, flowers flat white clusters followed by berries which turn red by fall.
1 to 2 feet, \$1.59

INDIAN CURRENT (S. Vulgaris)—Similar to the Snowberry except that its fruits are dull red, and that the smaller berries cluster in thick ropes along the weighted down stems.
2 to 3 feet, 59c

KERRIA JAPONICA F1, P1.—Very numerous branches are graceful, slender, shiny, arching, its leaves serrated, stems and foliage alike a brilliant green. Its abundant double flowers are like half-open rose buds, rich yellow.
1½ to 2 feet, \$2.15

KOLKOWITZIA, amabilis (Beauty Bush) — Growth upright in the center, with outer branches arching. Bell-shaped flowers, borne in pairs forming a cluster of 25 or so, pink with orange veins. Buds darker pink. Somewhat resembles the Weigela.
2 to 3 feet, \$1.93 each

LILACS (Syringa)
LILAC, Common Purple—It is the well known purple fragrant variety. 2 to 3 feet, \$1.37.
PERSIAN—Finely cut foliage and delicate lavender blossoms; blooms not so large as the common purple but is a graceful shrub. 2 to 3 feet, \$1.37.

JASMINE

Nudiflorum—Grows to 15 ft. and opens its satiny yellow flowers in late winter or early spring, before the leaves appear.
1 to 2 ft., \$1.00; 2 to 3 ft., \$1.57; 3 to 4 ft., \$2.04

FRENCH LILACS (Hybrids)

Twice as beautiful as the old fashioned lilacs. Blooms young. Flowers are much bigger, more richly colored, more sweetly scented. Favorites in every garden.

LUDWIG SPAETH—Best dark colored lilac. Large wine-red attractive single flowers in narrow well-filled clusters. Very fragrant.

3 for \$7.26 18 to 24 inch, \$2.64 each

MOCK ORANGE

PHILADELPHUS AVALANCHE — Flowers frequently cover the entire length of the branches and are very sweet scented. Blooms in late spring.

2 to 3 feet, 83c; 3 to 4 feet \$1.04

PHILADELPHUS, Virginal—The reliable, old sweet scented Mock Orange known and loved by all. Has double white flowers that are larger, more beautiful, very plentiful. Fragrant. Grows 5 to 7 ft. tall.

18 to 24 in. size, \$1.30

ROSE ACACIA—Drooping clusters of rose colored flowers resembling pea blossoms.

2 to 3 ft., \$1.21; 3 to 4 ft., \$1.53

SNOWBALL, Old Fashioned (Viburnum Opulus Sterile)—An old time favorite. Foliage large and coarse showy flower in large white 'balls' in April.

1 to 2 feet, \$1.76

SNOWBERRY (S. Racemosus)—Rose colored flowers in June and July; followed by large clusters, milk white fruits which remain far into winter.

2 to 3 feet, 91c; 3 to 4 feet, \$1.02

TAMARIX, Odessana (Caspian Tamarix) — Exquisitely feathered foliage of silvery green, blooming in July and August with large, loose panicles of lavender-pink flowers.

2 to 3 feet, \$1.26

WEIGELA, Rosea—Most popular of all; tall growing, vigorous, with deep pink flowers in the greatest profusion during June and more sparsely at intervals thereafter.

2 to 3 feet, \$1.40

WEIGELA, Eva Rathke (Red Flowering)—Dark rich red flowers in May and June, with dark green attractive foliage. Semi-dwarf. Produces amazing quantities of dazzling bell shaped flowers.

12 to 18 inch size only \$1.15

SPIREAS—THE FAVORITE SHRUBS

BLUE MIST—A beautiful low growing shrub with numerous clusters of powdery blue, fringed flowers from August to frost. A neat, compact, rounded bush about 2 ft. tall with silvery green foliage. Very showy and hardy.

1 year plants \$1.21

BILLARDI — Tall, erect shrub with canes terminated by feathery plumes 5 to 6 inches long, of dainty pink color.

2 to 3 feet, \$1.26

BUMALDA — A spreading, low bush with dark leaves brightened by corymbs of pretty light pink flowers in May, and at intervals all summer.

15 to 18 inches, \$1.10

DOUGLASI—Bears spikes of beautiful deep rose colored flowers in July.

2 to 3 feet, \$1.04

VAN HOUTTEI—Grandest of Spireas. Complete foundation of pure white bloom in May and June.

3 for 1.86 1½-2 ft. (2 yr.) 69c ea.
2.58 2-3 ft. 93c ea.

THUNBERGI—Forms a dense fluffy bush 3 to 5 feet high, the feathery foliage a pleasing shade of light green, changing in autumn to bright red and orange.

3 for 2.12 1-2 ft. 80c ea.
2.67 2-3 ft. \$1.03 ea.

NOVELTIES FROM THE OZARKS

ELDERBERRY

The small white flowers come in large handsome clusters; very fragrant, handsome. opening in early summer when other flowers are scarce. Fruit black, very profuse; ripening in August. Grows 6 to 8 feet high. Berries are highly esteemed for pies, sauce, cordials and highly flavored wine which is very refreshing. Everybody likes these Elderberries; they are easy to grow and do well everywhere.

49c each — \$4.39 per dozen

MINT (Piperta)

Peppermint, also known as brandy mint. A perennial herb 1 to 3 feet high, characterized by its strong, pungent oil, reproduced by under-ground stems. Has purple flowers in terminal spikes, nearly 3 inches long. It grows well in wet soil.

20c each — \$1.93 per dozen

PAW PAW or "ARKANSAS BANANA"

A small tree with purplish or whitish flowers and handsome foliage. The large fruit is edible and improves by cultivation. Worthy of more extensive planting. Very desirable as an ornamental tree.

Price on First-Class Trees
\$1.24 each — \$12.50 per dozen

OZARK HUCKLEBERRY

This delicious little berry is a native of the Ozark Mountain range remarkable for its fine flavor, is a choice fruit for jams, pies and fruit cake. Grows luxuriant, very hardy, a prolific bearer, and when given a small amount of attention produces regular annual crops. Will grow on almost any kind of soil, and when once set is there permanently, never having to be renewed.

36c each — \$3.75 per dozen

SASSAFRAS (Verolium)

Usually a small, slender tree, but specimens up to 100 feet high. Flowers yellow usually in racemes that bloom before the leaves unfold, delightfully fragrant. Fruit blue-black with a bloom, on fleshy, bright red stalks. Almost no native trees have such gorgeous scarlet foliage in the fall. The roots make a fine healthy tea in the spring of the year.

3 to 5 ft., \$1.24 each

WHITE RIVER CANE

Makes excellent fishing poles. Grows 20 to 30 ft. high in good rich soil. Grows and multiplies very rapidly.

36c each — \$3.75 per dozen

Arkansas Native PERSIMMONS

A very large seeding variety.

\$1.24 each — \$12.50 per dozen

EVERBEARING FIG

Under 1 ft., 97c; 1 to 2 ft., \$1.07;
2 to 3 ft., \$1.21

Ripens its fruit from July until frost and each tree will produce fruit first year. Bears on its new growth. Light straw to brown in color, medium size and very sweet. Does not crack easily. Extra good for preserves or eating fresh.

Figs should be planted more extensively. Do not let the sprouts or suckers grow, but prune the trees so as to have clean bodies at least two feet high. Cut tops back to six or twelve inches above the ground when planting. Such trees will bear fruit and will stand much colder weather than if the sprouts are allowed to grow.

HYBRID PERSIMMONS

2 to 3 feet \$2.19

Some of these should be planted by every family. The fruit often measures ten inches in circumference. They ripen in August, September and October. The trees bear young, and are very ornamental.

EUREKA — Very large, oblong, pointed flesh yellow, skin red.

TANE NASHI — A large acorn-shaped seedless persimmon, pale yellow and very productive. This is the persimmon you see in most stores selling at 5 cents each. It is frost resistant and widely adapted.

HARDY TREES and SHRUBS from the fertile OZARKS

SHADE TREES

For **BEAUTY** and Enhanced Property Values!

BLACK GUM—A very dense shade early in the fall. Turns blood red, making it a thing of beauty for weeks before the leaves fall off. 4 to 6 ft., \$2.43.

CHESTNUT, HORSE—Dense shade, has white flowers in May. 2 to 3 ft., \$1.07.

CRAB APPLE, Bechtel's (Double Flowering) — A handsome little tree seldom over 20 feet in height. One of the finest for lawn decoration. Produces in profusion double, young, and is very fragrant. 2 to 3 ft., \$2.89; 3 to 4 ft., \$3.46.

CRAB APPLE, Hopi—One of the most desirable red flowering varieties. An attractive upright-growing tree that becomes literally covered with large rose-colored flowers. 3 to 4 ft., \$1.74; 4 to 5 ft., \$2.31.

CRAB APPLE, J. Darlene—Bronze green foliage, purplish red flowers, bright red fruits. Fruit good for jelly. 1 to 2 ft., \$1.43; 2 to 3 ft., \$1.80.

CRAB APPLE, Eleyi—Purple leaves, deep rose blooms and bright red fruit. 2 to 3 ft., \$1.38; 3 to 4 ft., \$1.76.

CRAB APPLE, Almey—The most beautiful flowering crab. Tree is upright vigorous and hardy. Blossoms of fiery red followed by red-like fruit. 2 to 3 ft., \$1.37; 3 to 4 ft., \$1.76; 4 to 5 ft., \$2.10; 5 to 6 ft., \$2.31.

CRAB APPLE, Profusion—Bronzy-red foliage. Large single carmine flowers. Bright red fruit. 1 to 2 ft., \$1.43; 2 to 3 ft., \$1.81; 3 to 4 ft., \$2.15.

CRAB APPLE, Redford—Petals deep pink. Fruit is medium in size and deep dark solid red, with deep red flesh. The foliage has a reddish-green tinge. 2 to 3 ft., \$1.81; 3 to 4 ft., \$2.15; 4 to 5 ft., \$2.42.

DOGWOOD, Pink Flowering (Cornus Florida Rubra)—Similar to White Flowering Dogwood except that the flowers vary from pink to light red. Grows 10 to 20 ft. high. 18 to 24 inch, \$3.19; 2 to 3 ft., \$4.29.

DOGWOOD, White Flowering—2 to 4 ft., \$2.20; 4 to 6 ft., \$2.47.

ELM, AMERICAN—5 to 6 ft., \$1.74; 6 to 8 ft., \$2.02.

ELM, CHINESE—Native of China. 2 to 4 ft., 71c; 4 to 6 ft., \$1.65; 6 to 8 ft., \$2.53.

JUDAS TREE (Red Bud)—Pink Blossom. 3 to 4 ft., \$1.49; 4 to 6 ft., \$1.65.

LOCUST (Black)—Popular for shade, wind-breaks and timber belts; white scented flowers in spring. 2 to 4 ft., \$1.10; 4 to 6 ft., \$1.76; 6 to 8 ft., \$2.50.

MAPLE, SUGAR (Hard Maple)—Excellent for street and lawn planting. Dark green leaves turning to scarlet and gold in autumn. 5 to 6 ft., \$2.92; 6 to 8 ft., \$3.85; 8 to 10 ft., \$5.44.

MAPLE, SILVER LEAVED (Soft)—Leaves white underneath; rapid grower; very ornamental. 4 to 6 ft., \$1.49; 6 to 8 ft., \$2.25.

MIMOSA—Well known popular Southern tree. Long branches, wide spreading top. Pink flowers, dark green fernlike foliage. 2 to 4 ft., \$1.27; 4 to 6 ft., \$2.17.

MULBERRY (EVERBEARING Hicks)—Fruit is rich, flavor, last six weeks. Stands winter of western middle states. 3 to 4 ft., \$1.50.

OLIVE, RUSSIAN—Wide spreading tree of moderate height. Its silvery foliage makes a beautiful specimen tree. 2 to 4 ft., \$1.57; 4 to 5 ft., \$2.15.

PEACH—"New Peppermint Stick" Flowering Peach—The most beautiful of all flowering peaches. Moderately double flowers, white marked with red stripes. 3 to 4 ft., \$1.74.

PEACH, RED LEAF—2 to 4 ft., \$1.53; 4 to 6 ft., \$2.49.

PEACH, DOUBLE WHITE FLOWERING—3 to 4 ft., \$1.93.

PERSIMMON, American—2 to 3 ft., 91c; 3 to 4 ft., \$1.15.

POPLAR, LOMBARDY—Tall, slender to 6 ft., 91c; 6 to 8 ft., \$1.25; 8 to 10 ft., \$2.18.

POPLAR (Simoni, Chinese)—Fast, slender grower, somewhat resembling Lombardy but having more spread and being a longer-lived tree. 2 to 4 ft., 87c; 4 to 6 ft., \$1.44; 6 to 8 ft., \$2.04.

PLUM (Thundercloud)—Ornamental blood leaf plum with bright pink blossoms. Bright red fruit. Retains color well. 2 to 3 ft., \$1.31; 3 to 4 ft., \$1.67; 4 to 5 ft., \$2.27.

PRUNIS NEWPORTI (New Purple Leaved Plum)—3 to 5 ft., \$2.09.

SWEET GUM—Glossy foliage in summer brilliant color in the fall, young branches with corky bark in the winter. 4 to 6 ft., \$4.13; 6 to 8 ft., \$4.95.

SYCAMORE, American—Wide spreading. 4 to 6 ft., \$1.57; 6 to 8 ft., \$3.08; 8 to 10 ft., \$3.74.

TULIP TREE (Whitewood)—Magnolia-like flowers. 4 to 6 ft., \$3.84.

WILLOW, PUSSY—A small tree with dainty flowers. 2 to 4 ft., \$1.10.

WILLOW, GOLDEN WEEPING—Yellow bark. 2 to 4 ft., \$1.10; 4 to 6 ft., \$1.93; 6 to 8 ft., \$2.75; 8 to 10 ft., \$3.25.

WILLOW, WISCONSIN—A well known common weeping willow, makes a large tree covered with drooping branches. 2 to 4 ft., \$1.10; 4 to 6 ft., \$1.93; 6 to 8 ft., \$2.75; 8 to 10 ft., \$3.10.

CHINESE WHITE WISTERIA—Long, attractive drooping clusters of white pea-shaped flowers. 2-Year Vines, \$1.61 ea.

JAPANESE PINK WISTERIA—Beautiful pink flowers in long clusters. 2 Year Vines, \$1.61 each.

GOLDEN RAIN TREE

One of the rarest and most beautiful trees that bloom in spring with large showy yellow clusters. Plant in spot protected from winter winds.

3 to 4 ft., \$4.95

BLUE SIBERIAN IRIS

A superb plant for any flower garden. Grows about 30 inches high. Flowers are violet blue. Blooms in June and July. A good cut flower. Grows in damp but not swampy places. Be sure to order a few of these plants for your garden.

Price: 22c each; \$2.20 per dozen

BENCO'S MOUNTAIN ASH (European)

A most popular tree in America as it is in Europe, attaining a height of 18 to 25 ft. It is laden with drooping clusters of bright red berries against a background of soft green foliage.

4 to 5 ft., \$4.21 each

BENCO'S CUT LEAF WEEPING BIRCH

The gleaming white bark and graceful drooping branches with delicately cut leaves, gives a striking beauty, summer and winter, unmatched by any other ornamental tree. Does best in northern and eastern states. The white bark comes a year or two after planting.

3 to 4 ft., \$3.53

Benco's Outstanding Ornamental Trees

BENCO'S HYBRID FINE LEAF ELM

One of our best and fastest growing shade trees. Adapts itself to all climates and soil conditions. Foliage dense with rich green leaves. Leaves out early and remains late. Its large size and fine proportions makes it a handsome and dignified tree practically blight resistant.

6 to 8 ft., \$3.50; 8 to 10 ft., \$4.50

BENCO'S NEW "RED FLOWERING WEEPING PEACH"

This is the first time we have been able to offer this wonderful Ornamental Weeping Peach. With large red flowers and weeping habit of growth similar to the weeping flowering cherry. You will be proud to place it in a prominent place in your yard so that it will be a specimen plant that will truly be a source of inspiration to your friends and neighbors.

18 to 24 inch, \$1.93 each

BENCO'S PURPLE FRINGE MAGNIFICENT SMOKE TREE

One of the loveliest native American ornamentals. When in bloom gives the unusual appearance of a brightly colored cloud of smoke in June and July. The beautiful shining green foliage colors beautifully in the fall.

2 to 3 ft., \$1.79 each

BENCO'S RUBY TREE

Prunus Cistena—A medium size growing tree. The leaves are fiery red to scarlet and branches also red. Light pink flowers in early spring. An amazing tree, hardy and easy to grow.

Fine for Table Use, Wine, Jelly and Juice — The Best Commercial Grape Grown.

FAVORITE VARIETIES OF GRAPES

WHITE

NIAGARA—Occupies the same position among the white varieties as Concord among the black. Bunch and berries large, greenish white, changing to pale yellow when fully ripe. Skin thin but tough; quality much like the Concord.

RED

DELAWARE — The bunches are small, compact and sometimes shoudered; berries are small with thin but firm skin; flesh juicy, very sweet and refreshing and of the best quality for both table use and for wine. Ripens with Concord or a little before; vine is hardy, productive and a moderate grower.

BLACK OR PURPLE

CARMAN GRAPE — Vines very hardy. Grapes large, black and thick on the cluster. Bears from one to two bushels per vine. Very good eating grape—they outsell anything else on the market.

CARMAN

CACO

PORTLAND

OUR THREE BEST GRAPES

FREDONIA

Black, with heavy bloom, cluster about medium, berry large, very early, good quality, comparatively new and very promising.

PORTLAND

Holds first place among Grapes as an early white variety. Vine is hardy, productive and healthy. Bunches and berries larger than any other white Grape.

CACO

The Best Red

This is a variety considered the best and hardest amber-red ever produced, the bunches being very large and the berries comparable with the new Fredonia.

In quality Caco ranks among the best of the native Grapes, approaching in flavor European Muscat rather than the foxiness of native Grapes.

CACO

PORTLAND

OUR CHOICEST ROSES — \$1⁵⁰ ea., \$15⁰⁰ per doz.

KNIGHT

Long pointed bud. Flower semi-double. Very fragrant. Deep blackish crimson, shaded maroon.

PINK DAWN

Splendidly formed flowers of velvety rose-pink. A fine cutting rose. Free blooming. A lovely rose.

E. G. HILL

Its brilliant color extra freedom of bloom and lasting color qualities have made it popular. Large flowers of lasting scarlet-crimson never fade or turn blue, but actually become deeper red as they open.

CHARLOTTE ARMSTRONG. An all-climate Rose. Hardier than most other roses. Beautiful lovely, long streamlined, carmine-red buds and the open blooms of vivid cerise.

CHRISTOPHER STONE

Bright velvety scarlet-red with golden stamens. Very fragrant. Vigorous upright grower and abundant bloomer.

ECLIPSE

Bud remarkably long pointed, deep gold. Flowers yellow on long stems.

FRANCIS SCOTT KEY

Has high centers and a delicate perfume. Dark pink blooms, lighter on outside. Very double. Sturdy growth. Dark leathery, glossy foliage. Long, strong stem.

BRIARCLIFF

Large, perfectly formed, deep rose-pink blossoms, lighter on outer petals, with a touch of citron-green at the base. Fine for cutting. Foliage glossy, dark. Vigorous free blooming.

BETTY UPRICHARD

A large salmon-pink rose with rolling edges. Buds are long pointed with spicy fragrance. Distinctly bicolored.

REX ANDERSON. An outstanding exhibition rose of delicate, lovely ivory-white; perfectly formed, slow opening, one of the few very successful whites. Its fully double flowers may be grown to enormous size by disbudding.

GOLDEN CHARM (Yellow Talisman). Deep unshaded yellow. Habit at growth similar to Talisman. A highly satisfactory Rose that will give you a lot of pleasure in your garden or as a cut flower.

CONDESA DA SASTAGO. Beautiful blooms of fiery copper inside and rich gold on the reverse. Fragrant and a good strong grower.

BETTER TIMES. Glorious red color prized for its long stems and pointed buds. Has large blooms with texture-like shimmering satin. Hardy plant.

THE DOCTOR. Sparkling pink, pointed buds; one of the largest of all blooms—5 to 6 inches across.
